

Optimus - Power up your gaming experience

Select your preferred gaming destination with exclusive access to dedicated IP.

[Subscribe](#)

For the gamer in you!

Don't let the ping decide how you play – Optimus is designed to provide ultra-low latency, resolve NAT issues, and ensure a seamless and immersive gaming experience on any device, including consoles, iPhones and desktop PC. Enjoy faster response times, uninterrupted gameplay, and an edge over your competitors.

Why Optimus?

Ping test

Easily check the ping for your desired server IPs.

Unrestricted NAT

Host, join, and play with your friends without waiting in queue for hours.

Dedicated IP pools

Choose from Eastern and Western server optimization.

24/7 customer support

Round-the-clock assistance for uninterrupted gaming

Compatibility

Works with PC, consoles and mobile phones (Android/iOS).

Terms & conditions

What is Optimus?

Optimus is a network optimization service which applies to your Nayatel home network. It assigns specialized IP pools configured to give low and stable latencies to Eastern and Western game servers.

Which devices are compatible with Optimus?

Optimus is compatible with PCs, Game Consoles, Smartphones and Tablets.

What is a Free SPEED-UP Night session?

Users who subscribe to Optimus will receive one free 200Mbps SPEED-UP Night session. The session is available from 12:00 AM to 9:00 AM, and users can subscribe anytime after 12:00 AM, but the session will automatically end at 9:00 AM.

How do I activate Optimus?

You can easily subscribe to Optimus through Nayatel's Customer Portal or My Nayatel App.

How does Optimus improve my gaming experience?

Optimus lets you enjoy a smooth online gaming experience by lowering and stabilizing network latency for Eastern/Western game servers and unrestricting the NAT.

Can I check ping to specific locations with Optimus?

Yes, Optimus offers an easy-to-use ping checker tool. You can select Eastern or Western servers and then enter the IP address you wish to check the ping for.
